ADJOURNMENT

Chairperson Heredia adjourned the meeting at 5:52 p.m.

Elva Gamboa, Secretary to the Commission

Agenda posted on December 21, 2023.

**CITY OF BELL GARDENS
PUBLIC WORKS DEPARTMENT**

**AGENDA REPORT
Item No. 2**

TO: Honorable Chair and Members of the Traffic and Safety Commission

FROM: Bernardo Iniguez, Director of Public Works/Facilities
BY: Douglas Benash, P.E., City Engineer

SUBJECT: TRAFFIC SAFETY ANALYSIS – REQUEST FOR RED CURB PARKING RESTRICTIONS FRONTING 7533 GARFIELD AVENUE

DATE: February 6, 2024

RECOMMENDATION:

It is staff's recommendation that the Traffic and Safety Commission approve for City Council consideration the request for the installation of 10 feet of additional red curb parking restrictions fronting 7533 Garfield Avenue to improve sight distance conditions.

BACKGROUND/DISCUSSION:

The Public Works Department received a request from a business representative of Orbit Industries for the installation of additional red curb parking restrictions fronting 7533 Garfield Avenue due to traffic safety concerns.

INVESTIGATION AND DISCUSSION:

In response to the request, the City Engineer reviewed the submitted application and documents. In accordance with City policy, a field review of the site was then conducted. The site is located at the northwest corner of Garfield Avenue and Clara Street. The site allows access for large trucks with a driveway on Clara Street and a southerly driveway on Garfield Avenue. Just north of business site is Garfield Elementary School. Garfield Avenue is a divided arterial with 2 lanes in each direction and parking on both sides of the street.

The business representative indicated that school traffic parks within the area of the driveway impacting inbound and outbound large truck traffic on Garfield Avenue. Currently, the Garfield Avenue driveway has 10 feet of red curb on the southerly side of the driveway, with no red curb on the north side of the driveway.

Access and sight distance issues are considered as part of the California Manual of Uniform Traffic Control Devices (MUTCD) guidelines and warrants when looking at intersections. Staff uses this information as a baseline when considering requests for sight distance issues from private property. As engineers, we also look at the community as a whole, current community parking impacts, operations, and accident history. We do not have any accident history at this address.

The community has an overall parking shortage and when looking at this specific case, the options are to do nothing or paint 10 feet of red curb on the northside of the driveway.

CONCLUSION:

After a review of field conditions, to improve sight distance conditions, the City Engineer recommends approving the request for painting of an additional 10 feet of red curb parking restrictions on the north side of the southerly Garfield Avenue driveway.

FISCAL IMPACT:

The estimated cost for the installation of red curb is approximately \$500 and is available in the current Street Maintenance Budget.
